

KRZYSZTOF KIERZKOWSKI

Software Tester

I am 23 years old and have completed my studies in Logistics, as I was unsure of what I wanted to pursue in the future. However, I discovered my passion for testing and have been working in this field for about 4 years now. My experience in testing has allowed me to develop several positive traits, such as being task-oriented, detail-oriented, and adept at utilizing various tools for both automated and manual testing. In addition, I am continuously learning and expanding my knowledge not only in testing but also in front-end technologies, as this helps me better understand the workings of applications. As a conscientious and task-oriented individual with exceptional soft skills, I am committed to enhancing not only the software quality, but also the overall development process and workflow.

EXPERIENCE

Remote / part-time Sep 2022 - Present	<div>Manual/Automation Tester</div> <div>HTD Polska Sp. z o.o.</div> <div><ul style="list-style-type: none">Manual testingMobile testing (iOS, Android)Automation testingAPI testingPreparation of test plans, test scenarios, data and casesIntegrating API tests with Jira Xray and setting up CI/CD pipelines in GitLab for API testsTwo main medical and wellness software projects</div> <div>Tools: Jira, Jira Xray, Testcaselab, Confluence, Visual Studio Code, Cypress, Postman, GitHub, GitLab, MacOS</div>

SKILLS

- Proficiency in test case creation and execution
- Knowledge of testing methodologies
- Application testing in Scrum or Kanban methodology (Agile)
- Ability to effectively communicate and present new software functionalities to end-users, ensuring clear and concise understanding of product features and capabilities
- Experience with testing tools
- BDD, TDD
- Attention to details
- Continuous learning
- Communication skills
- Time management skills
- Analytical skills

TOOLS AND TECHNOLOGIES

Project Management:
Confluence, Jira, Jira Xray Cloud, Azure DevOps

Test Management:
Testlink, Testlodge, TestCaseLab, Testrail, Xray

Azure DevOps

Testing API: Postman

Automation Testing:
Cypress, Codeception

Frontend technologies:
HTML, CSS, Sass(SCSS), JavaScript (in progress), Bootstrap (in progress)

Version Control System:
Git

CMS: Drupal

Database Communication:
SQL

Documentation:
Enterprise Architect (UML), SharePoint

Marketing Automation:
Mautic

IDE: Visual Studio Code, PHP Storm

Communication: Slack, Discord, MS Teams, Zoom

Operating System:
Windows, macOS, Linux(Ubuntu)

Other: Microsoft Office, Browser DevTools
